

Espaço 2

**Nós criamos
Luz**

e2

A man in silhouette is working on a large, shallow stone basin on a wooden workbench. The room is dimly lit, with three spotlights illuminating the scene from above. The ceiling is made of dark wood, and the walls are a textured, light blue color. The floor is made of wooden planks. There are some black plastic bags and other items on the floor in the foreground.

Espaço 2
Projetos de Iluminação e Luminárias

Ao adquirir uma luminária da Espaço2, você pode ter a certeza de estar usando um produto ecológico e que respeita a natureza.

As luminárias são feitas em barro, que é transformado em cerâmica. Durante o processo de modelagem, o material passa por uma queima a 1008°C, o que quer dizer que você pode ter a segurança de que sua peça terá seu aspecto original preservado por muito tempo, inclusive em áreas do litoral.

Estes materiais naturais contribuem com a verdadeira integração entre a iluminação e o jardim: as peças se confundem com a natureza, passam a fazer parte dela, reproduzindo a luz agradável sem agredir a paisagem.

Todos os componentes utilizados neste produto atendem às normas de qualidade internacionais. Incluídos os componentes resistentes à oxidação, como o latão, aço inox e alumínio.

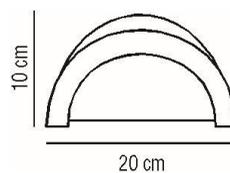

A Espaço2 não fabrica apenas um produto diferenciado, investe em uma nova cultura de iluminação, que une conforto visual à economia de energia. Nossa missão é estimular a prática de usufruir dos jardins também à noite. Nossas belezas tropicais podem ser ainda mais exuberantes quando vistas sob novas cores e texturas noturnas.

A vertical slit cut into a textured wall, illuminated from the sides, with the word "Arandelas" overlaid in white italicized text.
